Subject Index of Vol. 36

bifurcation, 1
bifurcation and chaos, 361
boundary condition(s), 351, 419
bundle-like stream, 193

capillary L/D ratio, 255
compressibility, 411
constitutive equation(s), 205, 243
contraction, 333
contraction flow, 265
corrugated tube, 159

decoupling, 277
die flows, 333
disk flow, 361
drag, 27

eccentric cylinders, 109, 135, 159
EEME, 109, 135
Ekman layer, 351
Ekman number, 1
elastic fluids, 305
entry flow, 193
existence theorems, 419
extensional viscosity, 265

fading memory, 305
finite element methods, 109, 135, 159
finite elements, 277, 333
finite link number, 205
flows with dominating extensions, 71
fluids, 85
fluoro-elastomer coatings, 255
free convection, 395

gels, 85
Gieskus model, 159
GMRES, 277

Hamiltonian formulation, 243
hyperbolicity, 411

incremental model, 305
inelastic, 51
infinite-link assumption, 205
interfacial stability, 289

linear low-density polyethylene, 255
liquid crystals, 243

Maxwell fluids, 419
method of characteristics, 333
methods, 135
multiphase flow, 289

non-isothermal melt spinning, 71
non-Newtonian flow, 395
numerical solution, 51
numerical simulation, 265

Oldroyd-B fluids, 1
Oldroyd-B model, 27, 159, 277

planar contraction, 193
plane Poiseuille flow, 289
Poisson bracket, 243
polymeric liquid, 289
polymeric liquid crystals, 243
porous media, 395
power law, 51
pseudo-spectral method, 361

quasi-elongational approximation, 71

reptation models, 205
rheometry, 85

second order fluid model, 351
shear-thinning aqueous solution, 193
simulation, 265
singular parabolic, 395
slip, 85
slit-die, 255
sphere, 27, 51
spinning, 71
state variable model, 305
steady flows, 419
steady-state multiplicity, 361
stress overshoot, 265
suction, 351
surface melt fracture, 255
swirling flows, 1

tensorial order parameter, 243
transient convection, 395
transient flows, 109

unstable flow, 193
upper convected Maxwell model, 109, 135

variable viscosity distributions, 71
viscoelastic constitutive equation, 265
viscoelastic flow, 27, 135, 333
viscoelastic instability, 361
viscoelasticity, 277, 411
viscoelastic fluid model of integral type, 351
viscometer, 51

Weissenberg number, 1

yield stress, 85

Author Index of Vol. 36

Aksel, N., 351
Armstrong, R.C., 109, 135, 159

Baird, D.G., 255
Beris, A.N., 243, 411
Brown, R.A., 109, 135, 159
Buggisch, H., 351
Butcher, T.A., 51

Chang, H.-C., 361
Chiao, S.-M., 361
Chiba, K., 193

Dashner, P.A., 305
Debbaut, B., 265

Edwards, B.J., 243, 411
El Hadj, M., 333

Fortin, A., 277
Fortin, M., 277

Grmela, M., 243

Haq, S., 395

Irvine, Jr., T.F., 51

Ji, Z., 1

Khomami, B., 289

Larson, R.G., 243

Magnin, A., 85
Moynihan, R.H., 255
Mulligan, J.C., 395

Nakamura, K., 193
Northey, P.J., 109

Phan-Thien, N., 27
Piau, J.M., 85
